REPORT.

The Committee present their Fourth Report, with Statement of Accounts for the year 1926.

Medical Report. There was a large increase in the number of patients treated during the year, namely, 162 against 103 in the previous year. The Medical Committee's Report will be found on page 4.

Anniversary Day. Generous gifts of £47 3s. 0d. in money and 554lbs. in groceries, etc., once more gave proof of sustained interest in the Hospital.

Staff. Great credit and thanks are due to the Matron and Staff for their zeal and efficiency, especially when carrying on their work under great difficulties owing to building extensions. During this time the Matron used all available space, to avoid turning any patients away.

Building Additions. Last year it was decided to build a new wing with private wards, etc., and to adapt the existing wards as X-ray room, waiting and emergency rooms. While this work was in progress, the Committee realised that the accommodation of the public wards was inadequate, and that the moment had arrived for their extension. The problem of ways and means was partly solved by the receipt of a grant of £1,000 from funds bequeathed by the late Mrs. Scorer for charitable purposes, authority having been given by the Treasury Solicitor for placing the sum to the credit of the Building Fund. The Committee decided to proceed at once with the work, which is now nearing completion. During the enlargement of the public wards, experimental use has been made of the new wing, with most satisfactory results. When the building is completed, the accommodation of the Hospital will have been doubled, as there will be 17 beds and 3 cots available, and also an emergency bed.

Finance. The total income is £35 higher than last year, but in view of the greatly-increased expenditure and the growth in the population of the neighbourhood, the Committee anticipate a corresponding increase in local support during the present year. Happily the contributions under the "A" Scheme have realised £50, and those under the "B" Scheme £10 more than in the previous year. There are now 1,435 "A" contributors against 1,276 in 1925 and 115 "B" contributors against 99. This evidence of an ever-growing interest on the part of those for whom the Hospital is primarily intended is a source of great encouragement. Subscrip-

tions show a slight decrease, which the Committee, whilst grateful for the generosity which made the total possible, cannot but regret. Under the circumstances referred to in a previous paragraph, the cost of maintenance will of necessity be much higher, and it is hoped that all newcomers, as well as old subscribers, will give such generous help as shall ensure a considerable increase in revenue. On December 31st there was still a liability of about £1,200 on the uncompleted building, besides which further small sums will be wanted for equipment, etc. This means that the Hospital will for the first time be faced with a deficit. The Committee are most anxious to wipe this out during the present year, and will be very grateful for any donations for that purpose.

Endowment Fund. The Committee have learned with great satisfaction that this Fund will benefit by a legacy of £600 left by the generosity of the late Mr. C. T. Parsons, who had taken a keen interest in the Hospital from the very first.

X-ray Apparatus. It has not been possible to instal this yet, as during the building operations all the rooms have been used for patients, but as soon as the work is completed one of the former private wards will be converted into an X-ray room, and the Committee will then be in a position to accept the apparatus promised by Mr. and Mrs. Strong two years ago.

Operating Table. Thanks to the energy of Mrs. Keen and the Matron the necessary funds for the purchase of this have been collected.

Wireless. This was introduced last year, and is now being extended to the new wards. Great thanks are due to Mr. Forwood and to those who assisted, financially or otherwise.

Acknowledgments. This report would be incomplete without a brief acknowledgment of the ungrudging help given by the Medical Staff and the Honorary officials; but the Committee are well alive to the value of their services, and tender to each and all their profound gratitude. No less grateful are the Committee to all who, by their individual and collective efforts have done so much for the Hospital.

EDWIN STRONG,

Chairman,

March 21st, 1927.

MEDICAL COMMITTEE'S REPORT.

The work of the Hospital has progressed smoothly during the past year. This is greatly owing to the excellent help of the Matron and Staff.

A summary of cases is given in another page, showing a large increase in admissions and in both major and minor operations.

Of the eight deaths recorded, 6 were admitted in a hopeless condition.

The new Operating Table has been in use several months, and has proved of great use in long and tedious cases.

A Gas Apparatus has been provided. This will be of use in minor operations.

No Gas and Oxygen Apparatus has yet been provided. This would prove of great value in long operations on patients whose condition is very serious, and in extreme cases making life-saving operations possible where otherwise such operations could not be undertaken. It would also minimise distressing after results.

We are looking forward to the completion of the new buildings.

During the past year many cases have been sent away for X-ray diagnosis and treatment, and several applications for private wards have been refused owing to the wards being filled.

J. R. BENTLEY.
